

**Smooth operation** thanks to the stainless steel spring, the lead bar does not jerk down when opening the awning, it extends straight out.

**Reflecting sticker** increases visibility for your safety.

**Quality Approved**

### AUTO-LOCK®

The new self locking safety system is TÜV certified, a generation ahead of noisy mechanical systems.

**New faster cranking operation** for easier opening and closing of the awning.

### DUAL SECURITY®

**F45i** provides extra shaded area over traditional automatic-box awnings.

**Only Fiamma has the new Dual-Shock Absorber system** to protect the awning and the wall of your RV.

**Simple crank system** for fast and easy operation

In a message dated 4/5/2005, boultonsharon@... writes:

“Go view the Fiamma F45 at [www.fiamma.com](http://www.fiamma.com). This is the only awning that has dual shock absorber, to soften the wind gusts so it doesn't pull / jerk as much as the others.”

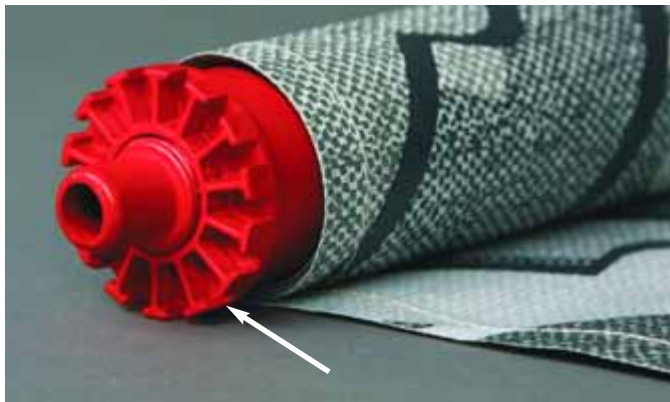

*“We are totally impressed by the new awning and Privacy Room. The awning works so much better than our old one and the ease with which the screen room goes up is phenomenal!!!”*

*Annie & Dick Dolan, West Topsham VT*

# Premium Awning Maximum Protection

## PRESTO FIX

Patent Pending

The Fiamma awning is the only awning to have the new Presto Fix which makes it possible to adjust the closing of the front bar if over a period of time, one side stops closing perfectly.

**NEW!**

**NEW!**

## EXTRA-STRONG ARMS

- Sturdy reinforced arms
- Twin cable
- Compact in size but strong enough to maintain fabric tension up to 70 lbs

## DUAL SHOCK-ABSORBER

The Dual Shock-Absorber® is comprised of special nylon that permits a smooth sliding arm assembly and guarantees double shock absorption, protecting both the awning and the vehicle wall. This absorption increases the durability of the awning in heavy weather conditions\* to an amazingly high level.

**\*Please follow instructions carefully.**

European Patent 0 752 507
